

Adapting Project "Citizen" to Estonian school

Supported by the Civic Education Centre (Calabasas, USA) and in cooperation with Indiana University the student book and teachers' guide for pt "Citizen" were translated into Estonian, also adapted. Created by the CEC Project "Citizen" is widely spread in Europe and appears to be very popular active participation approach towards the social studies. Civics teachers from ten Estonian schools evaluated the translated texts. In October and in December 2002 we provided 3 two-days in-service trainings for introducing the project to the teachers more widely.

In 2003 the student book in Estonian was printed.
