

Democracy Education Exchange Program (DEEP)

In 2002 Civic Education Center participated in larger international cooperation project launched by DEEP consortium (USA). In May 2002 eleven Civic educators from Estonia visited during three weeks Washington DC and Chicago. This visit served as an excellent opportunity for sharing experiences on the field of Civic education between the professionals of many countries. Teacher from the Võhma Gymnasium Erika Sari wrote an article about the visit for the Teachers newspaper.

The outcome of the project was compiled by the Estonian team in the fall 2002 a student guide "How to Manage with the National Exam in Civics?" for those preparing towards the State Examination in Civics for graduating from gymnasium school. Translation of the text is available below. In 2003. the revised student guide was prepared by the team.
