

## **Integration of Estonian Society through the Education**

The target group of the cooperation project of King Baodouin Foundation (Belgium) and Open Estonia Foundation were vice headmasters of 15 Estonian Russian speaking schools. During the intensive project we concentrated on the work with the National Curriculum, offering to the participants theoretical lectures, meetings with politicians, group works, workshops. Each participant created the practical outcome of the project writing "Vision of Integration Supporting and Identity Strengthening School Curriculum".

The project was carried out during the period September 1997 - June 1998.
