

## **Producing a Supportive Material for those Preparing Towards the Estonian Citizenship Examination**

In cooperation with the Netherlands organization Foundation for Inter-Ethnic Relations we developed and published in 1997 a study guide for those preparing towards the Estonian Citizenship Examination about the knowledge of Estonian Constitution and Citizenship Law. Two brochures - one a concise, another a commented Guide about the examination questions and answers were produced and distributed free in 7000 copies both in spring and summer 1997.

Because the popularity of the material an additional edition of both brochures was published in another 7000 copies in 1998.
